Ok, done. Will send a note to the team. It looks really good; very clear! You're planning to send an advance copy to RD prior to sig., right? Just making sure. I'm pretty sure Mike will want to read this, too, considering the political attention.

I'd say put them in the SP file. It's easier to maintain version control.

If I have questions on this, should I insert them into the SharePoint file, or send them to you separately? It looks really good, just a few questions I expect we might also get from RD. Thanks.

Monisha, Mark, and Kimberly,

Here is the link to our final aldicarb document on SharePoint. Please note that we have had some difficulties with tables disappearing while working in Word. As a backup, here is a PDF version. We did not change the date at the top of the memo to stop today. The date will continue to advance until the setting in Word is changed.

For your convenience, here is the link to the doc as it came out of BC review on Nov 1.
